Part I – Committee of the Whole Workshop.

A. Review of Regular Meeting Agenda. Mayor Pro Tempore Ronn Mercer called the workshop to order at 17.31 and asked Councilmembers present to review the regular meeting agenda. No changes were made to the agenda.

B. Discussion Items.

1. Text Amendment to the 2024 Comprehensive Plan. Director of Economic and Community Development Avril Baty kicked off the discussion. In her presentation, Ms. Baty provided an overview of the work to be done under this portion, including updates related to capacity, the transportation element and modeling, and revisions to the land use element. She provided a deeper review of the aforementioned items, including revisions to the housing element. Ms. Baty indicated that though there will be outreach, the work for the underlined item is not starting over. Ms. Baty also discussed the housing analysis conclusions and the history of housing and land use practices. Councilmember Olen inquired whether the current proposal retained excess or discretionary housing capacity that could be removed while still meeting the City's required capacity targets. If so, he proposed removing that capacity so it could be available to add back later to help satisfy future growth requirements. Staff responded that the excess capacity had already been removed and that the remaining capacity was needed to meet the applicable housing requirements. Ms. Baty concluded her presentation after answering questions from Councilmembers present.

2. Introduction to Design Standards. Ms. Baty opened this topic by providing background on the underlying legislation regarding design standards, namely RCW 36.70A.630; staff's current approach to the design standards under development; expectations, including building types by zoning districts; and development and site and building design standards. Ms. Baty also addressed the administration of the design standards, their applicability, what is exempt, and what considerations Council should make to complete work on the proposed design standards. Ms. Baty concluded her presentation by outlining the next steps for adopting the design standards and answering questions and receiving feedback and direction from Councilmembers present.

C. Scheduled Items. Having time before ending the Committee of the Whole Workshop, Mayor Pro Tempore Mercer inquired if Mayor Amy McHenry would like to provide her Mayor's Report, to which she agreed.

1. Mayor's Report. Mayor McHenry reported that she attended the YMCA Summer Camp Lunch at Depot Park with a camper, Mayor Pro Tempore Mercer, and several staff members. She said the children enjoyed the event and stayed engaged. The Sound Cities Association's Legislative Priorities Committee continues its meetings and has made significant progress on county and state legislative platforms for the upcoming session. Mayor McHenry also attended the City Staff Picnic with Mayor Pro Tempore Mercer, thanked Ms. McNabb for organizing the lunch and activities, and participated in a service opportunity by packing Power Packs for Empower Youth Network. She noted that, due to a scheduling conflict for King County Councilmember Perry, the planned Acres of

Diamonds tour was postponed; she instead met for coffee with the Acres of Diamonds Executive Director and a board member. Mayor McHenry attended the Children's Market at the Duvall Farmers Market and noted that her conversation with a market organizer appeared to increase foot traffic that day. She also participated in the Chamber of Commerce's Duvall Art Uncorked & Untapped event, which sold out due to limited wine glasses; attendees received the event well, with feedback indicating a desire for more frequent occurrences. Mayor McHenry assisted with the ribbon-cutting ceremony for Pebble Creek Playhouse despite adverse weather conditions; the event drew a strong crowd. She held a small business roundtable with Ms. McNabb and four Main Street business owners, sharing valuable feedback and institutional knowledge. Additionally, she attended the audit exit conference and expressed appreciation for staff's cooperation with the State Auditor's Office. Finally, Mayor McHenry attended the first day of school at Cherry Valley Elementary with Chief Keller and Officer Kluck. Dr. Susan Leach, Superintendent of the Riverview School District, thanked her for the positive impact their attendance had on students. She also announced she will attend Cedarcrest High School's opening tomorrow.

2. **City Administrator's Update.** City Administrator Cynthia McNabb opened her report with updates on events taking place in the City, including the SVGA dinner on September 23 and the South Fork Tolt Dam Tour that same day. Ms. McNabb also updated Council on the Snoqualmie Valley Economic Alliance's latest meeting in August, a presentation from King County Roads, and a snapshot of what the September 2 meeting will cover. She also informed Council about the Art & Wine Walk Wrap-Up and discussed lessons learned from this event. Ms. McNabb also informed Council of suggestions for a Community Development/Planning Commission 2027-2028 Work plan, and provided the reasoning behind it, asking Council for feedback. Ms. Baty provided an update on development applications her department has received that are under review or awaiting corrections.

1. **Proposed Revisions to DMC § 8.12 on Special Events.** Communications and Community Events Manager Rita Moreno said she received comments on the proposed policy and asked whether others had comments. Ms. McNabb provided a list of the proposed updates and brought them up for discussion and feedback, and answered questions from Councilmembers present. Ms. Moreno indicated that, after responding to different queries, an ordinance updating the Municipal Code would be part of the September 15 Consent Agenda.
2. **Proposed Amendment to Title 14 on Zoning Code Changes, Affordable Housing, and STEP Housing.** Ms. Baty led a focused discussion on the proposed changes.
